

April 24, 2020

Good Afternoon,

These last few weeks have really turned our worlds upside down and trying to stay ahead of it all has been challenging for everyone. But “normal” will return in various stages as time moves on. Hopefully you, your families and team members have all remained healthy throughout this time. We have made our best efforts to keep you updated on everything that has been happening, changing and many times it was on a daily basis as new information came out about the loan/grant programs. So, our attentions have been solely focused on helping you with questions and helping to gather information needed to submit these loans.

As things will gradually return to normal, we will be needing your monthly information so that we can help you with planning for taxes and recovery purposes. Send us what you regularly do for each month and we will work to get you caught up and moving forward. For those of you that haven't sent your taxes in, please do so when you have a moment so we can get those completed for you. This information is also critical to knowing how best to help you move forward.

As always, we are here for you. If there is anything, we can do for you, please reach out!

Your Gray-Pilgrim Team

**\*A Message for Dentists:** If you are sitting home and have some time on your hands, we have a webinar that you may want to consider. Dental Practice Solutions with Debbie Seidel- Bittke, RDH, BS. Debbie is a consultant we have had a few clients work with, and they were very pleased. It definitely is worth the \$45 price of admission!

It is 3 days – two hours each day. You will get 6 CE credits. After the training, you will have a website to log-in and review all the materials and recordings from the training. She has created a formula that helps dentists know exactly how many days-hours are needed to catch up on the back-log of patients who rescheduled appointments during COVID-19.

Her next training is: May 5,6 and 7<sup>th</sup> at 8AM to 10 AM PACIFIC TIME. Registration link is: <https://bit.ly/HYGIENEWEBINAR42020>
