

the **Thriving** Dentist **Study Clubs** WITH GARY TAKACS

We are pleased as members of the ADCPA to present the informative opportunity outlined below. The ADCPA (Academy of Dental Certified Public Accountants) has agreed to partner with Dental Consultant Gary Takacs to present a series of 6 continuing education virtual study club events for all ADCPA members and non-member dentists and their teams.

ADCPA (www.adcpa.org) is a world-renowned academy of accountants and its mission is to enhance its members' expertise through the sharing of knowledge and resources to provide progressive consulting, accounting, and tax services to dental professionals. The ADCPA has always looked for ways to deliver the best learning opportunities to dentists around the world. With this in mind, we have partnered with Gary to present a series of 6 continuing education virtual study club events starting in November and continuing every other month thereafter.

These study clubs will be on a wide range of topics necessary for success in today's challenging dental environment. Please consider this correspondence as your invitation to attend these study clubs as our guest (no cost to you). Here is the series of 6 study club meetings on the following topics:

The material that will be presented in these study clubs was developed from Gary's years of experience growing his own co-owned dental practice and helping dental offices achieve peak levels of performance. These study clubs are filled with practical information that you and your team members can immediately use to strengthen and enhance your practice.

How To Register For The Study Club Series:

You will receive an email with details of each study club one month ahead so that you and your team can register for each study club individually. You and your team are invited to all of these sessions but for CE reasons we require you to register for each event separately. Finally, if you are a specialist, you are allowed to invite up to 3 additional referral sources to join these scheduled series.

Each study club will be presented for 2 hours each and you will be able to earn 2 hours worth of CE Credits for attending the event in full. The topics will cover step by step instructions to achieve the goals of each topic. There will also be a 30-minute Q&A session with Allen Schiff, president of the ADCPA, and 2 ADCPA members at the end of each study club.
